

# MS. PATTY CAKE

Ms. Patty Cake born 1945, was a world renowned baker and circus performer. She learned to love baking while growing up in her families farm in Colorado surrounded by her beloved chickens. She could never bring herself to eat them though and became a vegetarian at an early age.

One day she discovered that by using the eggs from her special families chickens in her baking creations, she could create spectacular creations that soon people from all over the world came to see her bake.

At age 17, Patty opened the world's first Patty Cake Bakery. Her creations were wondrous and defied gravity. Her chicken eggs were highly sought after and other bakeries wanted them for their sugary creations. Several competitors tried to emulate this world-renowned baker, but failed because they didn't have her secret ingredient eggs.

Ms. Cake was found dead in her home late Monday night. She is survived by loving staff at Patty Cakes, her beloved family chickens and son, who has been missing for some time now.  
This world will miss this spe-cake-ular baker.

TONIGHT YOU BE PLAYING THE CHARACTER OF
